

Children's Treatment Network
OF SIMCOE YORK

Local Teams / Sites / Supports for Professionals & Families

Teamwork is at the heart of the Network's single plan of care approach. Network Partner professionals serving kids with multiple special needs work collaboratively together in geographic local teams throughout York and Simcoe.

This collaboration at the local level of Children's Treatment Network provides opportunities for front line staff from many different agencies to meet, share clinical knowledge, educate each other, problem solve and deepen their ability to work together for kids and families.

Professional development events within the local team environment focus on building knowledge and consistent practices that help each professional increase their ability to provide more integrated support to the child and family, closer to home.

Local Team Facilitators support professionals and families in each of the geographic areas. A Francophone Facilitator supports a roster of professionals who serve French speaking kids and families throughout York and Simcoe.

Contact the Local Team Facilitator in your area to discuss your needs and arrange a Local Site orientation. For a complete listing of Local Team Facilitators see the Network Contact Information card. Visit SharePoint for more detailed information on Local Site locations and to book facilities and equipment.

9 Local Sites including 2 Resource Centres, co-located with a range of Network Partners, provide professionals and families with additional access to integrated services, clinical facilities, specialized equipment and supports and educational events in their community.

Network Local Sites are located in:

York: Richmond Hill, Markham, Georgina, Vaughan and Newmarket

Simcoe: Barrie, Alliston, Midland and Collingwood

In Orillia, some services are being provided at Orillia Soldiers' Memorial Hospital Child Development Services site until funding is available to establish a Local Site.

SharePoint – The Network's online information centre for professionals

At the click of a mouse, professionals have 24/7 access to complete information on all the Network's single plan of care tools, processes and procedures.

Family Resource Site – Created BY families of children with special needs FOR families of children with special needs

The Network's Family Resource Site is an online discussion forum for parents, caregivers and families. Families can post messages and share tips, insights and ideas with other parents. New information is posted regularly by registered members so families are encouraged to visit the site, register, and start sharing with others in the forums. Visit the Network Public Website to link to the Family Resource Site.
