

Network Services Overview

Children's Treatment Network
OF SIMCOE YORK

- * **Rehabilitation, Clinical and Specialty Services**
- * **Single Plan of Care Services**
- * **Local Sites and Supports**

Children's Treatment Network Partners provide a wide range of healthcare, recreation, education and community services for children with special needs – at home, in school and throughout the community.

Many of these children have complex physical, developmental and/or communication needs. In order to provide more effective support for these children, additional funding from Children's Treatment Network was invested to expand the range of services provided by Network Partners. Through the Network, families have access to a continuum of rehabilitation, clinical and specialty services as well as the Network's coordinated single plan of care approach – closer to home.

Children with long-term multiple special needs residing in Simcoe or York, from birth to age 19 (or up to age 21 if attending school) who require treatment and/or support from multiple service providers may be eligible for:

1 Rehabilitation, Clinical and Specialty Services funded by Children's Treatment Network

- Audiology
- Augmentative Communication
- Child & Family Counselling
- Clinical Nutrition
- Developmental Assessment
- Developmental Paediatrics
- Feeding
- Inclusive Recreation
- Joint Management/Botox®
- Neuropsychology
- Occupational Therapy
- Physiotherapy
- Seating & Mobility
- Service Coordination

2 The Network's Coordinated Single Plan of Care Approach which includes:

- A Shared Electronic Record
- Support for development of Child & Family teams
- Service Navigation to all services and supports available across the Network

Teamwork is at the heart of the Network's single plan of care approach. Network Partner professionals serving kids with multiple special needs work together with families in Child and Family teams to set goals based on the family's visions and develop an integrated Single Plan of Care. New tools, including a shared electronic record and common assessments, reduce the need for parents to tell their child's story over and over again. Professionals on each Child and Family team share clinical information, coordinate services and work together to monitor the child's progress, through all the stages of their development.

The Network also works closely with organizations such as SickKids and Holland Bloorview Kids Rehabilitation Hospital to coordinate specialized services and care, where they are needed.

3 Local Sites and Supports for Families & Professionals

10 Local Sites, co-located with a range of Network Partners, provide families and professionals with additional access to integrated services, clinical facilities, specialized equipment and supports and educational events in their community.

Network Services Overview

Local Sites and Supports

Supporting families with information and knowledge is a Network commitment. Parents and providers often work together to hold information sessions, workshops and special events at Local Sites that focus on topics of most interest to families. Network Local Sites are located in:

Simcoe

Barrie
Alliston
Midland
Collingwood
Orillia*

York

Richmond Hill
Markham
Georgina
Vaughan
Newmarket

* In Orillia, some services are being provided at Orillia Soldiers' Memorial Hospital Child Development Services site until funding is available to establish a Local Site.

Family Resource Site – Created BY families of children with special needs FOR families of children with special needs

The Network's Family Resource Site is an online discussion forum for parents, caregivers and families. Families can post messages, share tips, insights and ideas with other parents, find out about funded and private services, special subsidies, support groups and special programs and events. To link to the Family Resource Site visit the Network Public Website at www.ctn-simcoeyork.ca.

About Children's Treatment Network of Simcoe York

Children's Treatment Network of Simcoe York is a unique not-for-profit service delivery model for children and teens with multiple special needs who live in Simcoe County and York Region. The Network builds on the strengths of existing service providers and links healthcare, education, recreation, social and community service resources to create an integrated service system that provides families with a single point of contact for a single plan of care. For more information visit www.ctn-simcoeyork.ca

Children's Treatment Network is funded by the Ministry of Children and Youth Services (MCYS) and works in close collaboration with Network Partner agencies and organizations funded by MCYS and other ministries including the Ministry of Education, the Ministry of Health and Long Term Care, the Ministry of Community and Social Services, as well as the County of Simcoe and Regional Municipality of York. Charitable Registration No. 830649141RR0001.
